**Date:** Thursday, March 15, 9:45 AM

Dear Linda,

Congratulations! You have been selected to present the oral presentation for the NURSE Category in our upcoming Maimonides Evening of Research for the submission.

You will be presenting your study via a 7 minute PowerPoint presentation followed by 3 minutes of questions and answers around 6:30-8:30pm following the poster presentations

We will have a projector and computer, so that you can bring any slides on a thumb drive which will be loaded onto the computer. Please come to the event no later than 4:00 PM so that we can practice loading your presentation on the laptop and ensuring that it will project well onto the screen for the presentation. Please be aware that we are expecting at least 150 people in attendance and we will be having media coverage as well.

I will also need a picture of you for our program (please call me or submit to me a nice picture of yourself). Lastly, please dress appropriate to the event and to your status of Oral Presenter

Some of the reviewer comments were;

- Trial results are important, meaningful and can impact on how nurses address issues in their working environment; important topic for employee-wellness, satisfaction, safety outcomes, etc.
- Validated study and did a good job discussing why the survey was used; great methods
- Abstract was too long and should have been edited to be more succinct

If you have any questions, please call me

Congratulations!

Aviva
